

Piedmont Healthcare Patients:

Piedmont Healthcare is now collecting information from patients during their office visit as part of the Meaningful Use healthcare initiatives put in place by the Federal Government. Listed below is the information that we are gathering to comply with the new program. If you would please take a moment to answer the following questions then hand this paper back to the front desk.

We thank you in advance for your time.

### **Standards for Maintaining, Collecting, and Presenting Federal Data on Race and Ethnicity**

This classification provides a minimum standard for maintaining, collecting, and presenting data on race and ethnicity for all Federal reporting purposes. The categories in this classification are social-political constructs and should not be interpreted as being scientific or anthropological in nature. They are not to be used as determinants of eligibility for participation in any Federal program. The standards have been developed to provide a common language for uniformity and comparability in the collection and use of data on race and ethnicity by Federal agencies.
